## WORKSTATION OPTIONS

### ROTARY RESOURCE FILE

#### Rotating Resource File

Rotating Resource Files are available in diameters of 30", 32", 36", 42" and 48". The unit consists of a welded steel frame with fixed top and two or three independent rotating shelves each with the capacity of 32 (3" spine) binders.

The top can be covered with your choice of laminate and equipped with a cable access through the center.

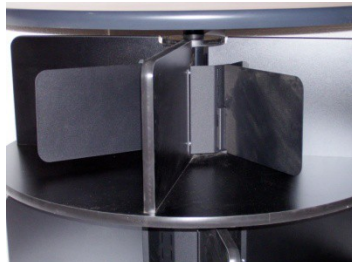

The five legs are equipped with adjustable levelers to compensate for uneven floors

Heavy duty casters can be added for mobility

Each shelf is divided into four fixed segments with the option of adding four removable dividers

Need more storage space?  
Add another rotating shelf
